ARCHITECT'S SKETCHES OF PROPOSED LIBRARY, CITY HALL

Here are the architect's drawings of the proposed city hall addition and library which Redwood City will vote on Tuesday. The structures would be built with funds derived from a \$97,000 bond issue and PWA grants totaling \$78,542. Both would be located on Middlefield Rd. between the present city hall and the postoffice, on property owned by the city.

THE LIBRARY
REDWOOD CITY CIVIC BUILDINGS

The library, cost of which is expected to be \$80,635, is shown in this sketch. Note the windows, designed to permit maximum amount of light to enter high up on the wall, but providing maximum amount also of space for book shelves lower down. In this building, which would provide space for 40,000 volumes—twice as many as now on hand at the old library—would be a large reading room, a story room, the John Gill room for children, rest rooms, work room, catalog room, librarian's office, and garage.

LIBRARY & REDWOOD CITY CIVIC BUILDINGS & CITY HALL

The city hall extension, estimated to cost \$93,900, is shown in this sketch. On the extreme right is the old city hall, which would be converted into a police station. The left shows the end of the proposed library. The city hall extension would provide offices for the city manager, his secretary, the clerk-treasurer, the water department, work rooms, two vaults and an entrance hall on the first floor, and an engineering department and two meeting rooms on the second floor. Between the hall and library would be an inclosed court, suitable for outdoor reading.

AIRPORT CHARGES SLASHED
San Francisco supervisors Monday approved a 20 per cent reduction in charges assessed commercial airlines for services received at San Francisco airport. The move was seen as an effort to win business from Oakland airport.

MENLO PARK NEWS NOTES

The municipal bond election takes place next Tuesday. The money to be raised is for the purchase of a site and erection of a city hall and playgrounds. The property to be purchased is six acres of land in the O'Dea tract. The sum sought to be raised is \$15,000. Many arguments are made in behalf of the proposition. It has some opposition. A big vote is expected. There will be two polling places, one at the city hall and the other at the Fremont School.

Judge Lawrence Cook and John B. Glunz, at an election held Monday last, were re-elected as members of the Menlo Park Sanitary District Board. Glunz received 99

votes and Cook 98. They were unopposed.

Miss Victoria Parsons, a graduate of Sequoia High School and of San Jose State College, where she specialized in music, has been appointed musical director of the Sunnyvale Grammar School and began her career as a teacher there Monday. Miss Parsons is a talented musician, specializing in the piano and violin. She is the daughter of Mr. and Mrs. C. P. Parsons of Stanford Park.

Mrs. Marie Larrecou is quite ill at her home on El Camino Real. She had never fully recovered from her recent severe illness, and the

other day suffered a relapse.

Robert Doyle, employed by the Ryan Furniture Co. in Redwood City and young son of Mr. and Mrs. John Doyle of Menlo Park, was married to Miss Crockett of Redwood City recently. The marriage was the climax of a romance begun in Sequoia High School, from which both young people were graduated a few years ago. The bride is a very pretty and talented girl with a host of friends on the Peninsula. Mr. and Mrs. Doyle will reside in Redwood City.

Edward Silva, the genial and accommodating clerk at the cash grocery, is soon to be married to Miss M. Paris of Mills Ave. Menlo Park. Miss Paris is a charming and pretty girl, beloved by everyone.

Mrs. James Cooper, wife of the mayor, returned this week from Los Angeles, where she spent 10 days with friends.

Mr. and Mrs. W. H. Weeden entertained at a family dinner Sept. 15 in celebration of their 46th wedding anniversary.

Trinity Episcopal Sunday School re-opened last Sunday. Primary and kindergarten grades meet in the parish hall, and the older grades in the church. Both groups meet at 9:30 a.m.

Toastmasters' Club Offers Memberships

That there are vacancies in the roster of the Redwood City Toastmasters Club which may be filled by anyone interested in receiving instruction in public speaking was announced today by Clarence J. Holt, club president.

The club's activity is carried on under supervision of the Sequoia Adult Evening School, only fees being the night school registration fee and club membership. Anyone interested in joining should contact Holt at the Shell Oil Co. plant or appear at the Methodist Church when the club meets again next Monday at 6 p.m.

NEGRESS SENT TO JAIL. SAN MATEO, Sept. 20.—Mrs. Willie Ann Thomas, 40, San Mateo Negress, today was sentenced to four months in the county jail on a battery charge filed after she had slashed Ernest J. Elliot, 40, with a razor last Friday evening. Two months of the term was suspended.

here and in Monterey. He is a nephew of Mrs. W. H. Weeden.

Herbert Dietrich and Martin Johnson, members of Menlo Park Post 443, are attending the American Legion convention in Los Angeles.

Plants at Durham, N. C., are said to produce one-fourth of the cigarettes manufactured in the United States.

A Letter to You

Dear Californians:

We want you to know why we oppose the single tax, proposition No. 20 on the November ballot, and why we believe you too will want to vote NO.

It will not raise the funds to keep our schools open, provide aid for the needy or for the aged. Chaos in business, agriculture and government will result.

Sincerely yours,

Why=Advertise the Peninsula?

Your new Community Development Organization explains its objectives, and how its program will benefit you.

CHANGING CONDITIONS AFFECT COMMUNITIES

SOMEONE has said that the only thing permanent in this world of ours is change. There is the story of the man who was selling, without advertising, most of the wringers used on the washing machines of the nation. Then someone thought of a spinner that offered competition. Now the wringer man is advertising.

While the wringer situation has no direct bearing on the best place to live in the San Francisco Bay Area, it does prove that changing conditions create new situations, calling for new prospects.

Here on the nature-favored Peninsula, most of us have been taking for granted the growth and progress in which we all share. Now a new set of conditions is being created. Bridges connect San Francisco to the mainlands of the North and the East, making them easily accessible. Aggressive campaigns are under way to remind prospective home owners—that the "grass is greener" on the other side.

Commuters' electric train service is expected to start over the Bay Bridge in November. Fast bus service at low fares over the Golden Gate Bridge is Marin County's answer.

Peninsula Still Has Advantage, But—

While every true Peninsulan will agree that our matchless climate, toll-free accessibility and delightful blending of city and country life still give us the edge, the question is, will our prospects realize this in the face of aggressive campaigns on the new-found advantages of rival communities?

Believing the situation calls for organized action, a group of forward-looking Peninsulans have formed SAN FRANCISCO PENINSULA, INC. for the purpose of maintaining the progress, prestige and prosperity of the Peninsula. Supported by public funds which average less than 3 cents per person per month, a complete promotional program is being prepared to take advantage of the unusual opportunities that exist for reaching prospective home seekers during the World's Fair.

Public Cooperation Essential

To make this constructive program a success, it is necessary to have the enthusiastic support of the entire Peninsula. To accomplish this purpose the Committee is anxious to answer all questions that arise and to provide complete information to everyone interested. The following pages contain some of the questions which may be asked, together with the answers.

Questions and Answers

1. WHY IS ADVERTISING NECESSARY?

Because a new state of conditions exists, i.e., bridges, low level tunnels, etc., offering new advantages to Eastbay and Marin.

2. WON'T THIS STILL LEAVE THE PENINSULA WITH THE GREATEST ADVANTAGES, AND WON'T PEOPLE DISCOVER THESE BY THEMSELVES?

Marin and Eastbay are both conducting advertising campaigns to lure home seekers who might otherwise locate on the Peninsula. If we keep silent and they make their advantages known, they will win out.

3. WHY ADVERTISE NOW?

Because 1939, with its World's Fair, offers a lifetime opportunity for the Peninsula to get its story before a large number of desirable prospective residents, investors and industrial executives, in a most effective and economical manner—covering not only the normal population, but also hundreds of thousands of visitors at no higher cost.

4. WHY MORE RESIDENTS—WHY NOT STAY AS WE ARE?

No community can stand still. It must go forward or backward. Most of us chose the Peninsula because it was making progress in which we wanted to share, and because we were attracted by the environment and the people who would be our neighbors.

5. WON'T PENINSULA POPULATION INCREASE ANYWAY, WITHOUT ADVERTISING?

Undoubtedly. With its strategic location and climate, the Peninsula is bound to attract population. The question is, "What kind?" Advertising directed to desirable prospects will help maintain a high standard; in other words, a selective program, shaping the destiny of Peninsula development instead of letting it drift towards lower standards.

6. CAN ANYONE PROVE THAT ADVERTISING WILL RESULT IN A HIGHER GRADE COMMUNITY—A BETTER ENVIRONMENT FOR CHILDREN?

Beyond question of doubt. Take for example, five square miles of Peninsula communities that have been developed through advertising, including Millbrae Highlands and Atherton Oaks—to mention only two representative, widely separated subdivisions. Compare the quality of such tracts that have invited people through advertising, with similar area of Peninsula communities that have been allowed to grow by themselves. Compare their desirability as a place to live. Compare real estate values, taxable values, character of population, etc.

In general the same effect can be expected from advertising the advantages of the entire Peninsula. Just as the most desirable retail outlets handle the best advertised products, communities that advertise their "wares" are most apt to attract a high type of citizenry and encourage the best tract developments which in the past have shaped our most desirable communities.

7. HOW WILL ADVERTISING AFFECT REAL ESTATE VALUES?

In keeping with the law of supply and demand, advertising, by increasing desirability and the number of prospects, will naturally tend to increase values by increasing demand. On the other hand, if the Eastbay and Marin County attract the bulk of new residents,

thereby cutting down the number of Peninsula prospects, real estate values on the Peninsula are bound to suffer through the law of supply and demand.

This does not necessarily mean less population, however, as lowered values open up tracts to lower income groups—usually with larger families—less self-sufficient and less able to pay the taxes essential to ideal community development.

8. HOW WILL INCREASED DESIRABILITY AFFECT TAXES?

In proving that advertising will help maintain higher real estate values, it is likewise shown that more collectable taxes are available at no higher tax rate, for the simple reason that people in the higher income brackets provide better schools, better public improvements, better fire and police protection and better living conditions in general.

By attracting people who can afford to pay taxes, advertising helps spread the burden and decrease delinquent taxes; and therefore should have a favorable effect on the tax rate. On the other hand, an influx of large families in low income groups, resulting from lowered real estate values (which in turn result from lowered demand) would certainly not have a favorable effect on the taxes of people already owning desirable Peninsula property, providing they demanded the same high community standards as at present.

9. WHAT IS THE EFFECT ON EMPLOYMENT? ON RELIEF?

Obviously, increased real estate activity and new, desirable families mean more building construction, more public works, and more jobs; hence, increased spendable income for labor—a lightened relief burden for the tax payer.

10. WHO PROFITS BESIDES LABOR, REAL ESTATE INTERESTS AND PROPERTY OWNERS?

Everybody! Druggist, grocer, plumber, garage man, doctor, dentist, lawyer, nurse—all profit through normal population growth; new incomes spent locally; increased demand for commodities and services; and greater turnover of goods and money. Most of a family's income is spent in the community where the family lives. A new family may thus put 75 per cent or more of its income into circulation every month, each dollar "turning over" several times, with profit to all concerned.

11. WHY INCLUDE INDUSTRIAL DEVELOPMENT?

The advertising will stress industrial advantages of only those limited areas now industrialized, remote from residential areas. Effort along this line is in keeping with the trend toward decentralization of industry. It is an acknowledged fact that desirable industries in segregated areas will promote Peninsula prosperity and lessen the tax burden of home owners, without in any way affecting the Peninsula's primary mission as a home community.

Each year a considerable percentage of homes become vacant through various causes, including the following:

1. Loss of job.
2. Business transfer.
3. Change in size of family.
4. Change in income.
5. Sickness or death in family.
6. Divorce.
7. Dissatisfaction with neighborhood.

This means that there is always the possibility of your being forced to sell your home. If demand for Peninsula property is maintained, you will get a good price; if not, you will be forced to sacrifice. Also, sustained demand means that mortgage loans can be renewed when necessary, at favorable rates.

Conclusion

For all of the foregoing reasons—SAN FRANCISCO PENINSULA, INC. plans soon to launch an intensive advertising campaign, principally concentrated in San Francisco, and continued throughout Exposition year, 1939—for the constructive development, and benefit, of the entire Peninsula.

grown-up may have the right
kind and the right amount of lighting to reduce eye-
strain and make seeing easier.

New *Certified Better Sight Lamps* make it possible to
have scientifically correct lighting for every seeing
purpose. Every child should have a *Certified* table lamp,
which gives a wide spread of smooth, glareless light-
ing to save eye strain and help young eyes see easily.

This need not be expensive, for *Better Sight Lamps*
are offered in many different models, at prices to fit every
pocketbook. Begin to Light Condition your home with *Better
Sight Lamps*. You'll add beauty and charm, and take a long
step toward conserving eyesight.

Another development making it easy for every home
to have *Better Light* for *Better Sight*, is
the new *Light Meter*, which measures light
as readily as a ther-
mometer measures
heat. Why not have
the lighting tested in
your home? It is a
free service—there is
no obligation.

Company Is Proud Of Meat Products

"We are rightfully proud of our products."

This was the statement made yesterday by Arthur A. Frank, president of the Frank Food Co., in releasing the first of a series of

advertisements designed to emphasize to Peninsula housewives the exceptional quality of their fine sausages and luncheon meats.

According to Frank, the main reason for the popularity of his company's products is the steadfast use of only the finest materials and condiments. Proof is the fact that the Frank name has meant "highest quality" to three generations

of housewives, while for the past 20 years, Frank's Fine Sausage and Luncheon Meats have been a favorite on the Peninsula. The discriminating Peninsula shoppers use "Frank's" and it is for this reason that the company has its products branded and tagged for their protection.
